

# Miya(Xuanxi) Kuang

Irvine, California 92620 | 858-568-5551 | Xuanxi.Kuang.2027@gmail.com

## EDUCATION

### University of California, Irvine

09/2023 - 06/2027

- **Major:** Public Health Science
- **Minor:** Health Informatics
- **Overall GPA:** 3.98/4.0; Dean's Honor list
- **Relevant course:** Biochemistry, Organic Chemistry, Cell Biology, Precise Medicine, Immunology, Programming

## RESEARCH INTEREST

- Biostatistics, Cancer Epidemiology.

## RESEARCH EXPERIENCE

### Dr. Hannah Lui Park's Lab – Student Researcher, UC Irvine

Sept 2024 - Present

- Project 1:
  - Conducting data analysis and cleanup using R for statistical significance testing, group comparisons, and data visualization in a feasibility pilot study on a fasting-mimicking diet in Asian Americans.
  - Co-authored a peer-reviewed publication in *Diabetes, Obesity and Metabolism* examining the feasibility and preliminary effects of a 5-day fasting-mimicking diet in Asian Americans with prediabetes. Impact factor 5.7
- Project 2:
  - Helping to build the All of Us cohort using wearable, EHR, and lifestyle risk variables to examine the association between wearable data and breast cancer risk.
  - Module building using Python, machine learning, and polygenic risk scores.

### All of Us Research Program at UCI - Paid research intern

June 2026 - Present

- Conduct epidemiologic research and statistical analyses on prostate cancer incidence and outcomes among veteran and non-veteran populations using the NIH All of Us Research Program database.
- Work under the mentorship of Dr. Argos Ziogas and Dr. Hoda Anton-Culver to develop retrospective cohort studies using electronic health record data and the All of Us database.
- Utilize SQL, Python, and OMOP common data model concepts to build cohorts, analyze population-level health data, and investigate cancer disparities.

### Dr. Wendy Cozen's Lab – Student Researcher, UC Irvine

Jun 2025 - June 2026

- Conducting independent and collaborative research on peripheral T cell lymphoma tumor and epidemiology incidence analysis based on CSP (Los Angeles Cancer Surveillance Program), CCR (California Cancer Registry), and the National Cancer Institute SEER program (Surveillance, Epidemiology, and End Results).

### Dr. Jing He's Lab - Student Researcher, Emory University

Jun 2026 - Present

- Conduct in-depth literature research on AI-driven drug discovery, focusing on drug target interaction prediction, model ensemble methods, and embedding learning for drug and protein representation.

### Cultivating Undergraduate Research Excellence in Cancer (UCI CURE-Cancer) - Paid Research Intern

June 2025-May 2026

- Funded by the American Cancer Society, selected as one of the top 12 candidates based on the Research and Academia
- Work closely with Dr. Wendy Cozen's lab on developing independent research on peripheral T-cell lymphoma. Epidemiological incident summer project and poster session at the Undergraduate Summer Research Symposium
- Shadowing oncology professionals with first-year medical students, gaining insight into the Orange County healthcare landscape, and interacting with patients.

Wang, K., **Kuang, X.**, Kang, M., et al. Feasibility and Preliminary Effects of a 5-Day Fasting-Mimicking Diet in Asian Americans With Prediabetes: A Pilot Study. *Diabetes, Obesity and Metabolism*. 2026; 1–5. <https://doi.org/10.1111/dom.71168>

**Kuang, X.**, Lam, E., Bernstein, M., Foley, N., Pinter-Brown, L., Lim, M., & Cozen, W. Abstract 2350: Subtype-specific patterns of peripheral T-cell lymphoma in diverse Asian populations. *Cancer Research*. 2026; 86: 2350. <https://doi.org/10.1158/1538-7445.AM2026-2350>

Weber, Y., Ilaty, A., **Kuang, X.**, Nguyen, E., Plaza-Florido, A., Radom-Aizik, S., Ziogas, A., Rahmani, A., & Park, H. Abstract 5031: Integrating real-world wearable data into breast cancer risk assessment: Evidence from the All of Us Research Program. *Cancer Research*. 2026; 86: 5031. <https://doi.org/10.1158/1538-7445.AM2026-5031>

**Kuang, X., & Sun, Y.** Brand Name: An Interactive and Collaborative Drawing Platform to Engage the Autism Spectrum in Art and Language Learning Using Artificial Intelligence. *Proceedings of the International Conference on Computer Science and Information Technology*. 2022; 65–74. <https://doi.org/10.5121/csit.2022.121506>

**Kuang, X.** *Coro's Adventure*. Children's Book. 2022. ISBN: 9798832603094. Published through Amazon. Hand-drew 24 pages of illustrations for a children's book educating children ages 5–9 about COVID-19 prevention.

## **ORAL PRESENTATION**

**Kuang X, Lam E, Bernstein M, Pinter-Brown L, Lim M, Foley N, Cozen W.** *Subtype-specific patterns of peripheral T-cell lymphoma in diverse Asian populations*. American Association for Cancer Research(AACR) **Annual Meeting 2026 and UCI UROP 2026**. AACR Poster presentation in Population Sciences: Epidemiology: Cancer Incidence, Mortality, Patterns, and Methodology; April 20, 2026; San Diego, CA. Poster No. 2350

Weber Y, Ilaty A, **Kuang X**, Nguyen EL, Plaza-Florido A, Radom-Aizik S, Ziogas A, Rahmani A, Park HL. *Integrating real-world wearable data into breast cancer risk assessment: Evidence from the All of Us Research Program*. American Association for Cancer Research(AACR) **Annual Meeting 2026 and UCI CALIT2 2026**. AACR Poster presentation in Diets, Alcohol, and Tobacco, and Other Lifestyle Factors; April 21, 2026; San Diego, CA. Poster No. 503

**Kuang X, Lam E, Cozen W.** "Subtype-Specific Patterns of Peripheral T-Cell Lymphoma in Diverse Asian Populations". University of California, Irvine Summer Undergraduate Research Symposium(UCI SURP) **2025**. August 15, 2025 Irvine, CA. Poster No.10

## **COMMUNITY INVOLVEMENT**

**Public Health 195W Practicum—Learning Assistant, UC Irvine**

April 2025 - Present

- Facilitate class discussion and assist student learning in an 8-unit upper-division course combining a 100-hour internship with public health writing projects, including a peer-reviewed article, grant proposal, and policy analysis
- Host office hour and participate in weekly discussions.

**Chao Family Comprehensive Cancer Center—Biospecimen Lab Internship, Orange County**

Sept 2024 - Jan 2025

- Processed biospecimens for cancer clinical trials, including specimen collection, processing, storage, shipping, and tracking according to specific research protocols.
- Conducted tissue bio-freezing, slide labeling, and serum and blood processing; prepared and organized clinical trial kits to ensure adherence to study requirements
- Worked with patient's electronic health data capture EPIC system and tumor tissue

**Science Library—Stack Assistant, UC Irvine**

June 2024 - Present

- Organized and maintained library stacks, including sorting, shelving, and shifting collections to ensure accurate material placement and easy access for patrons

## **HONORS**

- Student Membership in American Association of Cancer Research
- American Cancer Society funded researcher
- Awarded \$2,000 by UCI Calit2 IRT program in project funding for "Examining the Associations Between Physical Activity and Sleep to Breast Cancer Risk Through the Utilization of Wearable Data and Machine Learning." (2025-26 IRT)
- Phi Beta Kappa Book Award, University of California, Irvine. Awarded to rising sophomores who earned a **4.0 GPA across** 36 graded units during their first year at UCI.
- Learning Assistant Certification, UCI Division of Teaching Excellence and Innovation, University of California, Irvine (Jul 2025). Completed certification requirements for the Certified Learning Assistants Program.

## **SKILLS AND INTERESTS**

**Language:** Mandarin (Native), English (Fluent)

**Tool:** Microsoft Office (Excel, PowerPoint), G-Suite (Proficient), Python, R, SQL, Machine Learning, GWAS
